

Fishing has been good to excellent on most recent trips. The water is clear all over Baffin and the ULM. We're catching three to six pound trout in well above average numbers, with a few stretching to 29 inches and weighing over 7 pounds. Topwater bite is just starting to get consistent. Bite on sinking FatBoys has been steady. Patterns include fishing rocks in waist deep water, grassy edges on crotch-deep flats and shallow sandy spots tight to grass mats along shorelines.
