

Fishing has been steady lately in Baffin Bay. Decent topwater bite at times, but better results coming on sinking FatBoys in water ranging from knee-deep to about crotch deep....20-30 inches or so. Also catching plenty on soft plastics rigged on light jigheads. Fish are mostly hanging over a bottom with a mix of sand and grass. Not catching any monsters myself, but incredible numbers of 3 and 4 pounders. Today, I and two clients caught at least 150 trout, of which at least 100 were keepers, with a couple dozen over 20 inches. Water has cleared up nicely all over Baffin. Today, in particular, it was crystal clear!
